Summary

Frontend Developer with 2.5 years of experience in building responsive and user-friendly web applications. Skilled in **React.js**, **Redux**, and **React Router**, with strong expertise in state management and API integration. Proficient in **JavaScript (ES6+)**, **HTML5**, **CSS3**, and libraries such as **Bootstrap**, **Tailwind CSS**, **Material-UI**, and **Mantine UI**. Dedicated to writing efficient and maintainable code to enhance performance and user experience.

Technical Skills

Programming skills: C, JavaScript, TypeScript, HTML5, CSS3

Frameworks/Libraries: React.js, Redux, Material UI, Mantine UI, Tailwind CSS

Tools/Platforms: VSCode, Git, Github, NPM

Databases: MongoDB, MySQL

Other skills: RESTful APIs.

Experience

PiLog Group

Hyderabad, India

Frontend Developer

11/2022 - Present

- Engineered and maintained high-performance web applications using **React.js**, **Redux**, and **Material-UI**. Implemented optimized state management while ensuring a responsive, pixel-perfect UI by leveraging advanced **CSS** techniques such as **CSS Grid**, **Flexbox**, and **SCSS** for modular styling.
- Developed reusable, testable frontend code using **React.js**, **JavaScript**, and **Redux**. **HTML**, **CSS**, **Bootstrap**, leveraging the core concepts of **React.js** and **JavaScript**.
- Integrated React components with **RESTful** services to fetch and display dynamic content
- HTTP** and **Restful API** Communication with Observables
- Architected and implemented complex frontend logic using **React Hooks** and **Context API** to streamline component lifecycle management and ensure seamless state updates. This approach minimized re-renders and significantly improved overall performance.
- Ensured seamless cross-browser compatibility and responsive design to deliver a consistent user experience across all devices.
- Implemented **custom hooks** and reusable components, reducing code duplication.
- Refactored legacy codebase to improve performance and maintainability.
- Developed and updated the website and app to resolve issues.

PROJECTS

Lean Data Governance

- Developed a fully responsive design to optimize performance across devices, enhancing the user experience on mobile and desktop platforms.
- Translated UI designs into functional, interactive web pages, maintaining consistency with the brand's visual identity.
- Ensured seamless functionality and design across different browsers, addressing compatibility issues.
- Enhanced page load speed and user interaction by optimizing frontend code and resources.
- Worked closely with backend developers to integrate APIs and ensure smooth data flow within the application.
- Tech Stack:** **PHP**, **JavaScript**, **CSS**, **HTML**, **MySQL**.

Docs APP

- Developed a document application similar to Google Docs as a part of learning the React.js and Firebase Database.
- Key features: NextAuth (Google) authentication, document creation, editing, deletion, and a full-fledged text editor.
- Tech Stack:** **React.js**, **Node.js**, **JavaScript**, **Tailwind CSS**, **Firebase**, **Rich Text Editor**.

Web3 Book Store

- Built an Amazon-like bookstore where users can log in and make payments using Metamask and Polygon.
- Tech Stack:** **React.js**, **Moralis.io**, **Node.js**

Education

KK College Of Engineering And Management
Master's Degree in Computer Application(MCA)

Nalanda(Bihar), India
08/2019 - 09/2021
